Proprietary side-sill ground effects provide a vertical and athletic profile as optional contrasting-color side mirrors and graphics enhance the brazen look. Available lightweight 17"x7" forged aluminum wheels with ultra high-performance tires and its attitude beckon the track.

Its emblem defies ornamentation, as it adorns the front, rear, sides, and inside of the FIAT® 500 Abarth. Born of Karl Abarth's astrological sign, the Abarth Scorpion serves to exemplify this creature's tenacity. The center hubs' scorpions hint at the potency of the unique front brake rotors and calipers and semimetallic brake pads that have capable claws all their own. The distinctive symbol is also etched in places that can only be appreciated by those inclined to get under the body for a closer look.
